BASSANO, ALBERTA, THURSDAY, MAY 9th, 1940.

Subscription: Canada, \$2.00 per year:

## REGULAR MEETING TOWN COUNCIL

The regular monthly meeting of the Council of the Town of Bassano was held in the Town Hall on Monday evening last May 6th at 8 p.m. Five Councillors were present, and Mayor Playfair occupied the chair.

Councillor E. L. Skeritt was appointed deputy Mayor of the Town for the ensuing period of three months.

Following a short discussion, the Council decided that Wednesday, May 15th, 1940, should be set aside as clean-up day in the town, and the secretary was instructed to give citizens of the Town notice to this effect. All rubbish in yards must be cleaned up for inspection of the town engineer on or before that date.

A by-law setting the Tax rate in Bassano for the year 1940 was presented and passed. The rate of Taxation this year will be the same as last year, namely 29 mills for municipal, 25 mills for school, 12 mills for hospital, and 5 mills for social services taxes.

A by-law bringing the Tax Arrears Consolidation Act into effect for the year 1940 was also presented to the Council and passed.

The new Town Engineer, Mr. R. D. McLaren, gave a very detailed account of work carried out in Bassano during the month of April, stating that all town equipment had been operated and found to be in good order. Mr. McLaren assumed duties as Town Engineer and Chief of Police on May 1st, 1940, but had spent the previous month accompanying the former engineer, Mr. F. Mead, on the usual rounds of duty, becoming familiar with the various departments of his new work.

He also reported that a new check valve had been installed at the pumping station located on the river, and that the new valve was working very satisfactorily and giving no trouble. Several paths and sidewalks in the town were cindered during the month.

The following accounts were presented and passed for payment:

H. Greenwood	\$ 30.00
Roy Smith	100.00
Petty Cash Vouchers	79.36
Alta. Gov. Telephones	13.74
Calgary Power Co.	303.36
Work. Comp. Board	52.80
Pay Roll for April	521.60
Auto Camp Garage	2.85
McLaws and Gordon	25.08
Mothers Allowances	12.50
Westn. Mun. News	29.85
Wing Hong	1.55
Burroughs Add. Mach. Co.	14.80
Metals Ltd.	13.70
Calgary Herald	3.66
John Schelske	6.75
M. A. McLean	5.00
W. S. Playfair	38.35
Adam Meldinger	3.00
Flanagan Bros.	9.89
Miss M. Hansen	16.15
Safeway Stores Ltd.	8.00
Geo. Heptner	5.50
Andrew McKee	24.96
G. S. Warren	1.65
Alta. Pac. Grain Co.	39.95
Louis Conn	18.20
Jas Johnston	49.28
Alex McFaul	10.00
L. R. Edwards	71.50

## MERCHANTS ACCEPTING FOREIGN EXCHANGE TO DISPLAY CARD

Merchants and others catering to the tourist trade who will accept United States currency will be permitted to display an official card provided by the Foreign Exchange Board.

The card, bearing the crest of the Dominion of Canada, will be available in two sizes: 11 X 14 inches and 5 1/2 X 7 inches. The larger card is suitable for window display. Both will carry the same legend: "United States currency is accepted here at the official premium set by the Foreign Exchange Control Board."

## Spring Work In Full Swing

## SEEDING GENERAL ON DRY LAND; COMMENCED ON IRRIGATION

Seeding on dry land in the district is general this week, following a week of fairly dry weather. On irrigated lands, work is commencing, but reports indicate that there, work will not be general until the latter part of this week, or the early part of next.

On Monday, 35 inches of rain fell in a short afternoon storm, this being the only rain of the week. It is estimated that the total rainfall in the district this spring has amounted to well over 7 inches.

Irrigation water was turned into the main canal at the dam on Wednesday of last week, but it is not expected that there will be any demand for irrigation for some time due to the quantity of spring moisture.

All roads in the district are reported to be passable, although extremely rough. The ban on the main highway between Calgary and Brooks was partially lifted this week, and trucks and buses have resumed their scheduled runs.

## Literary Society To Entertain

## MAIL INVITATION TO HIGH SCHOOL BANQUET

Invitations to the Bassano High School Banquet and Dance to be held in the Masonic Hall on Thursday, May 23rd, were mailed this week. The affair is being sponsored by the Literary Society of the local High School. Included in the invitation is a request that all those wishing to attend the Banquet kindly reply to the committee in charge not later than Thursday next, May 16, so that a seat at the table may be reserved for them. Co-operation of persons receiving invitations will greatly assist the committee in making final preparations for the evening's entertainment.

Following the Banquet, which will commence at 7 p.m., a public dance will be held in the Hall. Len Davis and his popular Calgary Orchestra have been engaged to supply the music, and all citizens of the district are cordially invited

## TOWN OF BASSANO

## CLEAN UP DAY

Citizens are hereby notified to clean up their premises on Wednesday, May 15th, 1940, for inspection by the Town Overseer.

By Order of the Council  
Jas. R. Donaldson  
Secretary Treasurer

## BORN AT THE HOSPITAL

To Mr. and Mrs. John Heron, of Steveston, a daughter on May 2.

To Mr. and Mrs. Albert Ingeberg of Bassano, a daughter on May 5.

To Mr. and Mrs. Hugh Winch, of Majorville, a daughter on May 8.

## Discuss Tree Planting At Trade Bd. Meeting

A regular meeting of the Bassano Board of Trade was held in the Royal Cafe on Wednesday afternoon of this week, May 8th, at 1 p.m. Eighteen members were present, and President James Johnston occupied the chair.

Following luncheon, the business portion of the meeting was called to order, and reports of the various committees were heard.

The Swimming Pool Committee of which Mr. A. T. Connolly has been chairman for the past year, and which had capably managed the affairs on behalf of the Board, was replaced by another committee, with Mr. Chas. McKinnon acting as chairman for the coming year.

Mr. D. L. Downs reported on behalf of the Dance Committee, stating that the Dance scheduled to have taken place early in April would be held in the Masonic Hall on Friday evening of this week. He urged every member present to attend, and support the Board in their endeavor to raise funds.

It was suggested to the Board that the Town Council be approached with regards to the planting of young trees along the main highway on the north western approach into Bassano. The Board already has a large supply of trees in their Nursery located near the home of Mr. Geo. Warren. It was felt that the planting of these trees would add greatly to the appearance of the town to motorists when they are passing through. It was also suggested that the Board make arrangements to repay the Town Council, when funds become available for any expenses that may be incurred in the planting of these trees.

Mr. W. S. Pollock of Gem, a visitor at the meeting, gave the members a short address on the road situation in his particular district, and asked for the support to attend. Admission charges to the dance will be small.

The Banquet Program will include several addresses by prominent citizens of the district, and the awarding of diplomas received by High School students at the Music Festival to be held on May 17th.

## ALBERTA RED CROSS SHIPS SUPPLIES TO OLD COUNTRY

The Alberta Divisional Headquarters has shipped for transfer to Great Britain 236 cases of war and relief supplies since February 1. The last shipment of 32 cases went out on May 3.

This latest shipment included 144 dressing gowns, 360 Surgical towels, 1,164 sling bandages, 444 knitted helmets, 288 pyjamas, 90 surgeons' gowns, 192 bed sheets, 144 Hampton bed pads, 1,200 pillow cases, 846 bed gowns, 1,344 handkerchiefs, 444 wash cloths, 1,224 hot water covers, 1,008 personal property bags, 408 bed pan covers, 132 bed jackets, 972 socks for navy, 216 scarves for army, 234 pneumonia jackets, 180 mattress bed pads, 492 T bandages—a total of 11,849 articles.

In addition there were shipped 323 articles of clothing for Finnish Relief.

## Hospital Board Met On Saturday

The regular monthly meeting of the Hospital Board was held at the hospital on the evening of Saturday, May 4th. All members were present. Accounts totalling \$1941.58 were passed for payment. The Superintendent reported that during the month of April forty two patients had received hospital treatment; eight surgical operations were performed. Five patients had died during the month and three babies had been born—two boys and one girl. The secretary reported that the earnings for the month of April were \$1700.14; the total receipts amounted to \$1762.99 and the payments for the month totalled \$1918.05.

A letter from the Supervisor of Municipal Hospitals was read in which the official stated that he would be present at a Board meeting in the near future at which the matter of zoning the hospital district would be discussed together with other matters pertaining to the operations of Municipal Hospitals. The next meeting of the board will be held on Saturday June 1st at seven o'clock in the evening.

## BASEBALL PRACTISES TWICE A WEEK

Local baseball enthusiasts are informed that baseball practises are scheduled to be held on Tuesday and Thursday of each week. All those interested in playing baseball are invited to attend any of these practises.

Arrangements will be made in the very near future for an exhibition game with an outside team, to be played on the local diamond. Watch for announcements of the date and time of this game.

This year the Recorder is putting up a small prize of three dollars

of the Board in seeing that the roads were placed and kept in good shape.

The Board was informed that Mr. Richard J. Needham of the Calgary Herald would be free at an early date to address a meeting of local business men, and the secretary was instructed to communicate with him and make arrangements for a suitable date.

## Nine Others Needed To Keep One Pilot In The Air

In the British Commonwealth Air Training Plan it is estimated that one in ten airmen, forming the complement of a "flight", can be classed as pilots. Organization and administration, repair and inspection of aircraft and equipment, aeronautical development and a multitude of other duties absorb the services of many men vital to the actual flying operations.

Hence a wide variety of occupations and trades will be incorporated into the Air Force. Qualifications for some of these illustrate the highly specialized nature of the work. Aero engine mechanics, with a thorough knowledge of internal combustion engines and familiar with the methods of fitting bearings, piston and piston rings, valve grinding and engine timing, are required to keep the equipment in top shape. Then there are armament artificers. These must be capable of overhauling, repairing and testing rifles, machine guns, bombs, armament and other equipment used. The armament artificer should also have a working knowledge of explosives and understand the use of metal working machinery.

Cooks must also have not only a thorough knowledge of cooking but also of meat cutting, storage of perishables and de-frosting of meats and fish.

Men taken on as clerks must be capable of taking dictation at the rate of 75 words per minute and to type at a rate of 40 words per minute. They must be familiar with filing systems and general accounting.

The term disciplinarian has been applied to men who will have charge of the physical training of recruits. They must be competent in the instruction and supervision of physical training classes, have a knowledge of military drill, be proficient in fencing, boxing and gymnastics and be ready to take on coaching duties in various forms of athletics.

Electricians in the Air Force are expected to have a working knowledge of motors, generators and batteries and a practical knowledge of materials used in the trade. The electrician must be able to diagnose faults in circuits and electrical apparatus, and read wiring diagrams.

The fabric worker must be familiar with cutting, machining and the fitting of fabric to aircraft, be capable of sewing by hand and of applying all types of paints, dopes and varnishes.

A knowledge of the heat treatment of tools, springs and instrument parts is a necessary qualification for instrument repairers. They must know the physical properties of materials used in instruments, be able to read working drawings,

(Continued on Page 2)

to go to the player making the first home run on the local diamond. Players from visiting teams are eligible for the prize, as well as members of the local team. The homer must be made during an exhibition game.

ATTEND THE BOARD OF TRADE DANCE, FRI., MAY 10th

MUSIC SUPPLIED BY SONNY FRY AND HIS GENTLEMEN OF MUSIC. GOOD TIME ASSURED TO ALL. ADMISSION, 75c PER PERSON, SUPPER FREE.

### DAYLIGHT SAVING FOR PROVINCE IS BEING TESTED

CONSIDERABLE agitation for the adoption of Daylight Saving in Alberta is going on at the present time, the Junior Chamber of Commerce throughout the Province being busy tested out the feeling of the businessmen and farmers and citizens generally on the Daylight saving plan. The Daylight saving plan is popular in Eastern Canada and in the United States, in fact the radio listeners have had to revise their schedules so as not to miss the outstanding Canadian and United States programs.

While there are those who are opposed to daylight saving there is much in commend the plan and it has strong advocates in all parts of Canada and many in Alberta. The addition of an extra hour of daylight means much to thousands of people, and where the plan is generally adopted there is no interference with business or with the daily lives of the citizens. Some argue the plan is only for those parts of Canada where it gets dark early and not Sunny Alberta, where the curtain does not fall until late in the evening. However against this is the well-known fact that Alberta day air is very helpful to the lungs, while the night air in Alberta has the opposite effect.

Old timers who came to Alberta for lung trouble know this to be right, as the statement was backed up by their physicians and Sunny Alberta has not changed. An extra hour of Alberta sunshine would have a beneficial effect from a health standpoint. And perhaps with the extra hour of activity, Alberta people would learn to go to bed at a sane hour, which would also help from a health standpoint.

However, the various organizations are discussing the Daylight Saving Plan, which is not new and has an expensive rating, and after it has been discussed thoroughly in Drumheller and other parts of Alberta, some concrete action may result. The importance of the plan in the scheme of things throughout the North American continent makes it good business to keep an open mind on the subject, and not to come to too hasty conclusions—Drumheller Review.

### GOOD THING WE DON'T KNOW

ONE OF THE MOST humane things the designer of this world did was to plan his system so that we are ignorant of the future. If we knew exactly what would happen to us a year from today, two years or ten years from today, many of us would quit right where we stand. When the stock market crashed some years ago, we who had been playing a game we knew nothing about lost money. If we had known a year before that all our life's savings would be swept away some day, many of us would have found no incentive to keep on. There is a story told about a man who had been worrying over heavy losses that had reduced his millions to a bare pittance.

One day a fairy came to this man and told him she would grant him any wish he might make. The man thought a few minutes and then said "My wish is to see a newspaper published one year from today." Immediately the fairy handed him a newspaper published one year in advance. He turned quickly to the financial page, ran his fingers nervously up and down the list of stocks, and leaping from his chair shouted, "Hurrah! I'm worth fifteen million dollars. Isn't that wonderful?" Then carelessly turning over to the obituary page his glance fell on a report that made him gasp, "Great Heavens, I died two days ago."—Dakota County Tribune.

### POLISH BLOOD STILL FLOWS

RUSSIAN COURTS and firing squads are bringing Soviet justice to former Polish areas of Western Ukraine and white Russia, proclaims Izvestia, official government newspaper in Moscow. Already many former Polish officials have been executed, the announcement says.

Others will follow them to the grave until these bloody tribunals have completed their work of "liquidating" all those suspected of holding views not in harmony with those of their new rulers. Thus all elements who do not conform to the Kremlin ideologies will be eliminated and the conquered territory pacified and subjugated as the other half of Poland has been by the Nazis.

This is Soviet and totalitarian justice, a horrible travesty on civilized concepts of the term, just as the murderous machinery with which they mete it out is a barbaric burlesque on the forms of legal procedure.

It is indistinguishable, it is fair to say, from the Nazi justice being meted out to the part of Poland enslaved by Germany.

—Revelstoke Review.

The Countess of Athlone, the wife of Canada's new governor-general, is a granddaughter to Queen Victoria. A daughter of the Queen was the wife of an early governor, the Marquis of Lorne and a son, the Duke of Connaught served a term as governor-general during the last war. No Dominion has had as close association with the Royal House as Canada.—Lethbridge Herald.

Now is the time for all good Allies to lend a hand and shave off Adolf's mustache.—Ex.

### NINE OTHERS NEEDED TO KEEP ONE PILOT IN THE AIR

(Continued from Page 1)

have a knowledge of electricity, magnetism, general physics and mechanics.

The machinist must know machine shop practice, be proficient in the handling of lathes, milling machines, shapers, grinders and planers. He should be able to read working drawings and understand the use of micrometer, vernier caliper, surface and depth

gauges.

Motor transport mechanics, besides proficiency in repairing and overhauling trucks, must have a knowledge of map reading, police and highway regulations.

The metal worker and the metal airframe mechanic must be familiar with the use of maintenance of hand tools and shop equipment, understand working drawings and elementary geometry as applied to sheet metal work, must have a knowledge of rivetting panel beating, planishing, flanging, brazing

### HELP THE Y.M.C.A.

The Fundamental Need—Tonight, in Camps, Barracks and on ships—in Canada and Overseas—thousands of Canadian boys are facing the grim realities of War—living a life where there is no tomorrow; where every influence suggests it is only today that counts.

These boys went away full of faith and courage—will they return casualties to disillusionment and discontent or loyal, keen and willing to play their part in building a better Canada, after the war? To maintain their morale is essential to reap the fruits of victory.

The Y.M.C.A. Meets This Need—Established nearly 100 years ago by young men for young men, the Young Men's Christian Association has had a world experience in meeting the problems of youth both in peace and in war. Their secretaries are friendly Christian Men, trained for their work, with a deep human understanding—capable of organizing a baseball league or a movie show—a concert party or a vesper hour; of leading a sing-song or giving personal counsel—the type of men that youth respects and turns to confidently for leadership and inspiration.

### C. LEWIS AND FAMILY TO MOVE BACK TO BASSANO

Word has been received in Bassano that Mr. and Mrs. C. Lewis and Family will move back to their residence here around the fifteenth of this month. Mr. Lewis formerly operated the C. P. R. Coal Chute at Bassano, but at the outbreak of war, was amongst the first to enlist. Mr. Lewis has received a discharge from the army and will resume his former duties at this point. Mr. Ed. Downs has been operating the chute during Mr. Lewis' absence.

and soft soldering and acetylene welding.

Wireless and electrical mechanics should have sufficient knowledge of elementary electricity, magnetism and radio principles to manipulate wireless apparatus in common use. They must be capable of sending and receiving Morse at the rate of 18 words per minute. "Ham" operators, as amateur radio enthusiasts are called, may find in the R.C.A.F. an excellent outlet for their energies and ability.

Photography is of vital importance to the Air Force in modern warfare. To qualify as a photographer the recruit should be familiar with the history and characteristics of lenses and filters, have had experience in the use of different types of cameras and printing equipment, and understand the handling and chemistry of film development.

The airmen engaged in these trades and occupations within the Air Force make an important contribution to the training of pilots, air gunners and air observers.

Efficient Allies**

By Armand Zelenski

To most people birds are just another creature of God's creation gifted with the ability to fly and a true singing voice. Their songs add life to otherwise quite woods and the bright plumage of some add a great touch of attraction. In beauty of plumage, grace of motion and vocal ability they are without rivals, in their migration, mating and nesting habits they not only display unusual intelligence but exhibit human traits of character that create within us a feeling of kinship with them. How unusual it is to meet anyone who can correctly name a dozen of our common birds yet there are many who only know two or three of the countless of birds that may be found during the year. However, these gay restless creatures both by action and songs constantly invite us to pause in our work and give them our attention.

But songs and appearance are not the only good factors about birds. They are our best friends, our most efficient allies in the incessant warfare that must be waged by man against insect pests. Consider for a moment what birds do for us any spring day when insect life awakens. In the air swallows swifts and kingbirds are constantly flying to and fro ever in pursuit of insects which constitute their sole food. When they retire nighthawks and whippoorwills take up the chase capturing moths and other nocturnal insects which might escape the day flying birds.

Among the foliage of trees the light active warblers and wrens pick injurious tree insects from leaves and trunks. The vireos patiently explore the under sides of leaves and nooks and corners of logs while the woodpeckers, nuthatches and creepers attend to the tree trunks and limbs examining carefully every inch of bark for insects' eggs or larvae. On the ground the hunt is continued by robins, thrushes, sparrows and other birds who feed upon innum-

**A Message  
To Hitler**

By

Robert A. Morton

Only a few weeks to wait, and the first warm glow of Spring will touch the devastated lands and peoples of Europe. From the beginning of time, Herr Hitler, Spring has been nature's promise to mankind—a promise of new beauty, new life, and renewed inspiration for trust and fellowship among men.

But in this year of 1940, Spring may bring the fulfillment of another promise, Herr Hitler, your promise of mutilation and death for countless thousands of men, women and children. That is to be your Spring-time contribution to the progress of the human race—your gift to the world as the leader of a national group engaged in spreading German culture in Europe.

For the so-called national interests and honour of Germany, you have pledged a Spring harvest of Blood and Iron. Already, after many promises as easily broken as given, your Nazi war machine has violated three nations that were at fault only in possessing civilized instincts of a higher order than your own, and material resources ripe for plunder.

As one who has known and loved the German people, marveled at their genius for the arts and sciences of civilization, revered the great names of their poets and musicians, I, an American citizen, have watched with sorrow your rise to power, and the crippling and enslavement of the mind, spirit and goodwill of the nation. And, yet, I have some understanding of the process by which a people can be pushed into the bottomless pit of fanatical egoism, avarice and barbarity.

Herr Hitler, many years ago a shrunken little German professor named Nietzsche, who was to die insane, wrote a book. In it he exalted the German "superman," hailed the warrior as nature's supreme achievement, glorified war and the conquest of the weak, and preached the Will to Power as Germany's highest destiny. Other writers invented the myth of the "superior Aryan race," of which Germans were represented to be the purest representatives, and by that strange fiction entitled to rule the world.

You, Herr Hitler, soared high on the wings of such grim fairy tales and promises. Day and night the propaganda of your cult of war assailed the national conscience of your people with the savage doctrines of Nietzsche, and the call to the race-to-conquer of Wilhelm Wirth. "God" it was proclaimed, "a Nazi God, has ordained a world dominated by Germans; has given Germany a sacred mission to rule or destroy 'inferior' peoples."

By that revival of the law of the jungle, your cult gained fol-

erable forms of terrestrial insects. Thus we see from the standpoint of human importance most birds may be classified in the category as beneficial to man. Although our community is not gifted with a great number of song birds the few that we have herald the coming of spring as no human being can. Just pause for a moment and think what spring would be without these feathered friends. Would it not be like a tomb; quiet and forbidding. I think you will readily agree with me that it would be. However, on the other hand the song of the lark the regular staccato of a woodpecker on some tin roof or the beautiful evening call of the song sparrow herald the fact that spring is once more at our doorstep. When the long day wanes and work is finished the evening song of the thrush or the soft melodious cooing of the dove seems to bring heaven and earth closer together and announce the close of

**TOWN OF BASSANO, ASSESSMENT ROLL, 1940**

NOTICE IS HEREBY GIVEN that the Assessment Roll of the Town of Bassano, for the year 1940, has been prepared and is now open for inspection at the Office of the Secretary-Treasurer from ten o'clock in the forenoon to four o'clock in the afternoon on every day which is not a Public Holiday, except Saturday, and on that day from ten o'clock in the forenoon until one o'clock in the afternoon, and that any person who desires to object to the entry of his name or that of any other person upon the said roll or to the assessment of any property or to the assessed value placed upon any property, must within thirty days after the date of this notice lodge a complaint in writing with the Secretary-Treasurer.

Dated this 30th day of April, 1940.

Jas. R. Donaldson,

Secretary-Treasurer.

owers, seized power, killed, imprisoned or exiled all who resisted its inhuman theories and practices, and thus, Herr Hitler, by means of concentration camps, firing squads and the headsman's axe, and by unceasing deadly propaganda, the collective mind of many Germans was poisoned, deluded and paralyzed. The others have been silenced.

Under your inspired guidance Germany has abolished the forms of civilized justice, and has set up the supremacy of force and war as the legal principle of a German world order, in which man is doomed to live and die under a God-created Nazi dictator, and a regime of hate, greed and banditry.

Herr Hitler, upon this planet called The Earth, man during his brief stay is beset with the perils of natural forces that he must combat to remain even a short space of time. Then, too, selfishness and vanity have incited man against man in warfare. But slowly and surely through the ages, there has evolved a sense of interdependence among groups of men, and understanding and practice of mutual responsibility and altruism, of friendship and generosity, and a realization of spiritual values that came to a flowering in the life of the Nazarene.

All of these precious growths, the fruit of the wisdom of many generations of men—these have been denied and suppressed by your command.

**"A MESSAGE TO HITLER"**

(Continued from page 3)

German children young and old have been taught to hate with a psychopathic hatred, to see only through blood-shot eyes to think only in terms of a single warped mind. The stream of energy of the German people has been turned aside from the building of civilization to the sabotage of the structure they helped to create. Your cult has imposed upon its own and other peoples stark cruelties that

have shocked and united against Germany the public opinion of all free nations.

Would you have the world believe, Herr Hitler, that you and your group are the idols of the German people, a people bereft of all right to act or think for themselves, living under ruthless military law, hounded by a secret police, with the shadow of the executioner reaching over every home. A people led to economic ruin, and to slaughter in a senseless war? Do you exult in the enforced acclamations of a stricken multitude.

Think you, Herr Hitler, that one man in his moment on Earth can blow out the torch of reason, or nullify the divine attributes of mind and soul. If so, I disagree with you, for after a fleeting in-

terval the physical self returns to its separate elements and hate, frenzy and cruelty become only a shunned memory.

Herr Hitler, the purpose of this message to you is not solely to condemn. For you I hold the same sympathy as for an unfortunate whose offenses against humanity are the products of a clouded vision. Plainly is it written in the records of medical science that an abnormal ego, when charged with an over-powering urge to inflict suffering and death upon other, and bordering on a reversion to primitive brutality, is a mental illness. Its causes and treatment are well known.

Herr Hitler let an armistice be declared. Withdraw from the government of your people. Let the most learned physicians of Germany and American gather in a neutral country. Courageously submit yourself to them for study and care. The roadway to that rendezvous will be paved with the pennies of American children, and covered with the Spring blossoms of all the world.

In the name of the youth now living, whom you have promised to destroy this Springtime, and of the children who will never be born if your promise of Death in the Spring shall come to pass, will you not grant that boon to mankind?

**THE SAINT BY THE FIRE**

I can see a Saint, standing over a fire,  
Though no halo appears o'er her head;

She may often feel faint, but she ne'er seems to tire,  
While she sees that her children are fed.

No long flowing robes but an apron and a bib,  
And her staff?—Well it looks like a broom;

But when she lifts her babe from its crib,  
Bethlehem's star seems to shine in that room.

Every trouble she meets with a brave little smile,  
Only Saints have courage like this:

The children she watches at play for a while,  
Every hurt is healed with a kiss.

**MAKEPEACE**

Mr. and Mrs. J. Bulger and family, and Mr. and Mrs. E. W. Campbell were Sunday visitors at the home of Mr. and Mrs. V. G. Campbell.

We are all glad to hear that Mrs. J. Hannah has returned to her home, after being a patient in the Bassano Hospital.

Mr. and Mrs. H. Jorgensen were week-end visitors in Calgary.

Miss Betty Drummond spent the week-end with her parents at Namaka.

Mrs. J. Clark and her infant son John Douglas, have returned to their home in Makepeace.

Mrs. Barlow of Bassano spent the earlier part of the week visiting at the home of Mr. and Mrs. E. W. Campbell.

Miss Cecilia Kargard spent Sunday last visiting at the home of her friend Miss Elsie Jorgensen.

Mr. and Mrs. T. Warren of Crossfield were Makepeace visitors during the week-end.

**LATHOM**

Mrs. H. W. Baker is visiting for a week at the home of her parents J. P. Stuhatz of Rainier.

Softball practice was held at Lathom Sunday afternoon.

Mrs. M. W. Wurster is visiting at the Gosling home at present.

Stuart Wurster arrived Monday morning from Camp Borden, Ont., where he is in training with C.A.S.F. He is staying at the C. Salmond home.

Mary and Don Goudie called at the Gosling home Sunday afternoon.

She has tasks from the rise to the set of the sun,  
Which ne'er could be done by another;

Only Love is the power that sees them all done,  
For that Saint by the fire — Is Mother.

Charles F. Laine,  
Presbyterian Church

**"I'VE ADVISED A LOT OF PEOPLE TO BUY A PONTIAC!"**

"A lot of people look at Pontiac's size and quality—figure the price out of their reach."

"Friends see me in my new Pontiac. Next time we meet, they ask how can I afford it."

"I tell them Pontiac prices start with the lowest—to check up and see. And they do!"

"You won't find a smoother, quieter engine than Pontiac's, and I get more miles per gallon."

IT'S human nature to let your friends in on a good thing. That's why 1940 Pontiac owners are advising so many of their friends to buy a Pontiac.

Pontiac deserves this kind of friendship. Today, there's a Pontiac for everyone—27 models in 5 new series of Sixes and Eights—and prices start with the lowest! They're great big cars with long wheelbases—wide-seated and roomy—with power-packed engines that challenge the gasoline economy of the smallest cars. And Pontiac is engineered to cut repair and service bills almost to a vanishing point. Visit your Pontiac dealer.

### PREPARED FOR FESTIVAL NEXT FRIDAY

Final preparations for the Bassano Inspectorate School Music and Dramatic Festival to be held in Bassano on Friday of next week, May 17th, have been completed this week, and it is reported that all is now in readiness for the event. It is expected that there will be a good representation from all district schools, besides a number from outside districts where Festivals are being held earlier in the week. The Bassano Festival will be a final competition for all contestants, although winners of each department will be announced. This year diplomas will be awarded to the contestants, the diplomas bearing fixed seals in gold, silver and blue colors, indicating relative gradings of excellent, very good and good.

Adjudicators will be Inspector Frame of Drumbeller, Junior Elocution; Mr. P. L. Newcombe, Calgary, Music; and Mrs. W. F. Wooteri, Drumbeller, Senior Elocution.

Preliminary competitions will be held in the Masonic Hall, in one of the Local schoolrooms and in Knox Presbyterian Church. In the evening, the best of all talent heard throughout the day will again be heard in the Masonic Hall, commencing at 8 p.m. The public are cordially invited to attend any of the performances throughout the day or evening.

Early reports indicate that a fine array of talent will be present at the Festival this year, and it is expected that the Festival will be one of the most successful staged here for a number of years.

### GAY TIME PROMISED AT DANCE FRIDAY NIGHT

On Friday evening of this week, May 10th, one of the finest orchestras in Western Canada will be heard in Bassano, when Sonny Fry and His Gentlemen of Music dish up all the popular tunes for the Board of Trade's spring dance. The affair will be staged in the local Masonic Hall, and will commence promptly at 9 p.m.

The Board of Trade have built up a reputation in past years for the entertainment offered at their dances, and this year they promise a little more along this line. It is understood that this is just the opening dance of the season, and several more of equal calibre will follow as soon as the floor can be laid in the Curling Rink Building.

Sonny Fry and His Gentlemen of Music are noted for their entertaining ability, and present at each of their dances several novelty numbers that add to the merriment of the evening. It is understood that they have a regular program arranged to present in Bassano. All dances in the district, and lovers of really fine music, are urged to attend this affair.

### E.I.D. NOTES

#### DUTIES OF CONTACT MEN

In order to clear up misunderstanding in the matter, water users are asked to please note that the duties of the various contact men do not include looking after matters of personal business which any settler may have with the management. Contact men are not and should not be expected to be concerned with any matters except those of general interest or of benefit to the community.

### NOTICE TO CREDITORS AND CLAIMANTS

IN THE MATTER OF THE ESTATE OF BESSIE WIGHT, otherwise known as ELIZABETH WIGHT late of the Town of Bassano in the Province of Alberta, Widow, Deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named BESSIE WIGHT who died on or about the 6th day of April A.D. 1940 are required to file with the undersigned Solicitors for the Executor and Executrix of the said Estate by the 1st day of June A.D. 1940 a full statement duly verified, of their claims and of any securities held by them, and that after that date the Executor and Executrix will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed, or which have been brought to their knowledge.

Dated at the Town of Bassano, in the Province of Alberta, this 9th day of May A. D. 1940.

McCLAWS and GORDON  
Solicitors for the Executor and Executrix.

### REMODELLING FRONT OF CONN'S STORE

Local carpenters this week have been busy making alterations to the front of Iouis Conn's Store on main street in Bassano. When finished, the building will be stuccoed, adding greatly to the appearance of the premises. Mr. H. Holmes, contractor, is in charge of making the alterations.

### OFFICE HOURS

Effective Monday, May 13th, and continuing until further notice, the office hours will be from 8:00 a.m. until 4:30 p.m. Monday to Friday and from 8:00 a.m. until noon on Saturday.

The Management is advised that there are available free to water users at the Provincial Horticultural Station about 5,000 seedling Spruce trees which have been brought in from the north part of the Province. These will make a beautiful and useful setting around any home in the District and water users are urged to avail themselves of the opportunity to get these. They are seedlings about six inches high and can at present be lined out in the garden and will before long be ready for transplanting to permanent location. Those interested should lose no time in getting some.

### PREPARING FOR GEM DANCE, SOFTBALL PROVE POPULAR

Final preparations for the R.C. Altar Society Dance to be held in the Gem Community Hall on Friday, May 24th, are now being complete, and a good evening of entertainment is being rounded out. Citizens of the district are urged to keep the date in mind. Good music will be supplied by a popular orchestra. High light of the evening's entertainment will bet the draw for the pony being raffled off by the ladies. Tickets have been on sale for some time, and some may still be procured from members of the Catholic Church.

Enthusiasm of local citizens towards the game of softball has proven gratifying, and now four teams are reported battling it out nearly each evening. Two teams were recruited from the ranks of high school students, one from the single men of town, and one from the married men. To date a few preliminary games have been played, but the relative strength of the teams indicates that some good games, and fine exercise, are in the offing. All games are played on the diamond near the school house, and spectators are urged to turn out and cheer for their favorites.

### FOREIGN EXCHANGE ACQUISITION ORDER

## IMPORTANT NOTICE

As announced by the Minister of Finance, the Foreign Exchange Acquisition Order, 1940, has been enacted by Order-in-Council under the authority of the War Measures Act.

Unless exempted by the Order, every resident of Canada who, on May 1st, 1940, has any foreign currency in his possession, ownership or control, whether in Canada or outside Canada, is required forthwith to sell such foreign currency to an Authorized Dealer (i.e. a branch of a chartered bank) for payment in Canadian dollars at the official buying rate of the Foreign Exchange Control Board.

"Foreign currency", for the purposes of the Order, means any currency (excluding coin) other than Canadian currency and includes bank notes, postal notes, money orders, cheques, travellers' cheques, prepaid letters of credit, bank drafts and other similar instruments payable in any currency other than Canadian currency, and also includes any amount in foreign currency of which a resident has a right to obtain payment by reason of a deposit, credit or balance of any kind at or with a bank, savings bank, trust company, loan company, stockbroker, investment dealer or other similar depository.

The Order does not require the sale of any foreign securities.

The Order does not affect any foreign currency, deposit or securities of any non-resident of Canada and for greater certainty the Order expressly declares that a non-resident visiting Canada for business or pleasure for a period or periods not exceeding six months in the year continues to be a non-resident for the purposes of the Order unless such person enters or has entered Canada with the intention of becoming a permanent resident.

No resident is required to sell any foreign currency if he satisfies the Foreign Exchange Control Board that he held such foreign currency on May 1st, 1940, solely as trustee or agent for a non-resident and that the non-resident's interest therein had not been acquired from a resident since September 15th, 1939, except in a manner approved by the Board.

Under certain conditions stipulated in Section 1 (b) of the Order, a resident who is not a Canadian citizen may be granted exemption, but only after application for exemption is approved by the Board.

No life insurance company incorporated in Canada is required by the Order to sell any foreign currency which it needs for the purpose of carrying on its business outside Canada.

Further particulars may be obtained from branches of chartered banks. Any resident who has any foreign currency in his possession, ownership or control on May 1st, 1940, regardless of amount, should consult his bank at once in order to ascertain the extent to which he is affected by the Order.

**FOREIGN EXCHANGE CONTROL BOARD**

## Local Items of Interest

Miss Etta Fairfield of Calgary arrived in Bassano on Saturday night, and is spending a few days visiting at the home of her sister, Mrs. K. H. McAmmond.
